

Psychological & Educational

Consultancy Services

QUICK POINTS

- Dr Langsford has a PhD, First Class Honours, is an APS College of Educational & Developmental Psychologists Academic Member and has been conducting assessments in private practice since 1999.
- At the start of 2018, Dr Langsford made the decision to return to be the sole practitioner at PECS. Therefore, any clients/patients you refer are guaranteed to be assessed by a highly qualified and very experienced psychologist who has conducted more than 3000 assessments over the past 18 years.
- Dr Langsford ensures the assessment is conducted within 14 working days of the patient's/client's initial contact, and the report is completed within 7 working days from the assessment.
- The most common assessments conducted by Dr Langsford are for ADHD/ADD, Learning Disorders (aka Dyslexia, Dysgraphia, Dyscalculia), Autism, Memory Impairment, Intellectual Deficiency, IQ, Disability Support Pension, Special Examination Arrangements, and Medico-Legal/Personal Injury.
- Dr Langsford is often described by educational and medical professionals as providing the best assessment and reporting services in Western Australia. Please see www.pecs.net.au/pecs-example-reports for a variety of example reports.
- Dr Langsford's assessments are in the lower half of what is being charged within the profession, are provided at set fees to ensure no surprises for the client/patient, and attract private health and Medicare rebates, making them even cheaper for the referred clients/patients.

Comprehensive psychological assessment = \$895

(includes: background interview, behaviour checklists, WPPSI/WISC/WAIS, report, results feedback)

Comprehensive psycho-educational assessment = \$1295

(incl: background interview, behaviour checklists, WPPSI/WISC/WAIS, WIAT, report, results feedback)

- Due to increasing wait-times to see a Medical Specialist; many Paediatricians, Psychiatrists, and General Practitioners are now requesting that an assessment is completed by Dr Langsford prior to the patient seeing the Specialist for the first time, so they have a wealth of information already at hand.
- In 2015, Dr Langsford was personally selected from a shortlist by the then Federal Minister of Health (the Hon Sussan Ley) to be part of the 13-member Mental Health Expert Reference Group (MHERG). The group was formed to provide advice to the Commonwealth Department of Health in relation to the government's response to the National Review of Mental Health Programmes and Services. Dr Langsford was the only practising psychologist in Australia appointed to the group, and the only member in the group from Western Australia. For full details, please see www.pecs.net.au/pecs-profile.
